

Digitally Adept Designer | R&D architects | Venice, CA | 08.25.17

Firm Profile

R&D architects is a design intensive firm located in Venice CA.

See our work at: www.rd-a.us

Salary Range

\$45K to \$60k/annually, depending upon qualifications.

Job Description

R&D architects are seeking a motivated self-starter committed to continuous learning to lead the design effort on several small projects through construction documentation. Must be capable of integrating the work of engineering consultants into the architectural documents.

Job Requirements

We use Vectorworks Architect 2017, Rhino, Sketchup, and the Adobe Suite; the ability to work effectively across platforms is critical. VWorks experience is not essential, and BIM experience is a strong plus. A professional degree, or license, is not as important as ability and agility.
